

HOW TO PLAY ROULETTE

The roulette wheel is marked with numbers 1 through 36 and are alternately coloured red and black. Depending on the version of Roulette, there may be one to three green zeros that are marked on the wheel as well. A ball will be launched into the spinning roulette wheel that will eventually land on a number. If there are bets on that number, section and/or colour, they will be awarded according to the betting odds. Any bet associated with a zero pays like it normally would, but all other bets on the board lose.

PLACING YOUR BETS

- Insert currency or tickets to receive credits.
- Select the desired denomination from the chip set on the screen and touch any available bet position on the table layout.
- Increase any bet by touching the bet location multiple times or by touching a higher value in the chip set. To remove bets one at a time, press the **'Undo'** button.
- To repeat the same bets as your previous game, press the **'Repeat Bet'** button.
