STADIUM CASINO WAR®

To place your wager, choose the amount that you'd like to bet by touching the casino chips across the bottom of the screen. To place your bet, touch the Ante wager circle on any or all of the seven betting locations. You also have the choice to bet the Tie wager on any or all of the seven betting locations (see help screen for payouts). Wagers, winnings, and credits remaining can be viewed in the bottom left portion of the screen.

Once the countdown timer expires, the dealer will deal one card to each of the seven locations and one card for themselves. As in traditional Casino War, the highest card wins. In the event there is a tie, players have the option to "Surrender" or "Go to War" which is done by touching the corresponding area on the screen.

During "War" the dealer will deal three cards face down and one face up for the player, and then three cards face down and one face up for the dealer. The highest face up card wins and all wagers are reconciled. If another tie occurs during the "War" hand, the player also wins!
