

# QUARTZ™

## HYBRID

### Enjoy a live multi-table game experience from a single player station.

#### INTRODUCTION

Quartz™ Hybrid, on the dramatically redesigned Quartz cabinet, connects players with up to eight live and/or fully automated table games at the same player terminal! A touchscreen displaying eight colored tabs lets players switch between and view live outcomes from each available game. This action packed hybrid gaming experience gives players the opportunity to wager concurrently on up to eight games at once with just the touch of a finger, supercharging the excitement.

#### HOW TO PLAY

To place your wager, choose the amount that you'd like to bet by touching the casino chips across the bottom of the screen. Then touch the number or area on the screen where you'd like to place your bet. Wagers, winnings, and credits remaining can be viewed in the bottom left portion of the screen.

The look and feel of the games and their individual components and displays are trade dress of Light & Wonder, Inc. or one of its Subsidiaries. ## STADIUM

## THREE CARD POKER

### STADIUM THREE CARD POKER

To begin, select three cards from the nine card array by touching each desired card. To place your wager, choose the amount that you'd like to bet by touching the casino chips across the bottom of the screen. To place your bet, touch the Ante betting spot. You also have the choice to bet the main *Pair Plus*® (PP) side wager, as well as blind wager PP on each of the columns and rows of the nine card array (see help screen for payouts). Wagers, winnings, and credits remaining can be viewed in the bottom left portion of the screen.

Once the countdown timer expires, the dealer will present the first three card packet displaying cards one through three. The dealer will then deal the second and third card packets, corresponding to locations four through six and seven through nine accordingly.

Once all nine cards have been dealt, you have the opportunity to play or fold your hand. To play, you will need to match your Ante wager by selecting the desired chip value and touching the "Play" betting spot. When all players have made their decision, the dealer will deal the final three cards and winning hands will be rewarded according to the on-screen payable.
