Face up PAI GOW POKER

Pai Gow Poker, with a twist!

Face Up Pai Gow Poker is an exciting new pai gow poker game with a twist, and also features optional Fortune Bonus and Ace-High Bonus wagers.

How to Play:

To begin each round, players make the standard pai gow wager, optional Fortune Bonus wager, and/or the Ace-High Bonus (if available). Seven cards are dealt to each seat position and the dealer. The dealer will then set their hand face-up and follow house procedures for pai gow poker.

How to Win:

If a player's hand qualifies for payouts, the dealer pays according to the posted pay table. Because Face Up Pai Gow Poker is a commission-free game, players do not pay a 5% commission when they beat the dealer. However, when the dealer plays Ace-High, players automatically push.

Fortune Bonus®

The Fortune Bonus bet wins if a player's best possible five-card hand is a straight or better. If they wager at least \$5 on the Fortune Bonus, the dealer will place an "Envy" button next to their bet. This qualifies them for the Envy Bonus payout.

Envy Bonus

If at least one player receives a hand that qualifies for Envy Bonus payouts, all players with Envy buttons win. You can win multiple Envy Bonuses in a round, but you cannot win an Envy Bonus for your own hand or the dealer's hand.

Ace-High Bonus

The Ace-High Bonus wager (if available) pays if the dealer's seven cards are an Ace-High pai gow.
